01

VISION

Enabling innovation worldwide.

The emphasis is firmly placed on LFoundry's role as a facilitator and the positive effect its commitment in this direction has on the external environment.

The act of *enabling* conveys the notion of a reliable and receptive partner working to enhance its customers' performance, while the use of the gerund underlines the fact that this is already an act in progress.

What is more, *enabling* refers to mutually beneficial reliance whereby each element works together in order to progress together, framing the concept of innovation as a team effort in which LFoundry plays a crucial role within the wider community of innovators.

There is also an inferred link here to Key Enabling Technologies, which are considered fundamental factors in restarting industrial policy continent-wide, so this statement touches indirectly upon the notion of being European.

02

MISSION

We provide innovative solutions to bring our customers' ideas to life, shaping strong partnerships in a highly secure environment.

This statement is centred around the importance of the customer and the constructive working relationship that LFoundry strives to build.

The motivation of working to actualise the customers' ideas provokes strong associations of a creative and collaborative company.

LFoundry is established as the ultimate partner to communicate an equally relevant message to suppliers, investors and the community at large. In addition to the concepts outlined above, the statement stresses the added value LFoundry brings in terms of security and adaptability to customer needs thanks to its state-of-the-art production plant.

VALUES

Values

Initiative

LFoundry promotes a spirit of initiative to find high-performance solutions. Driven by creativity to create value for and with its customers, making the right decisions at the right time.

Being part of SMIC a multinational company, we will foster innovation continuously and actively carry out product technology R&D, increasing productivity and optimizing work procedures.

Fairness

LFoundry takes the initiative to understand customer's needs (both internal and external) to create tailor-made solutions, establishing highly collaborative relationships and a long term win-win partnership, founded on its dignity and integrity as a partner. We will be honest, defend important principles, commit to our words, and be responsible towards how our behavior influences the company and society.

Quality & Security

We will conform to quality standards and carry out each task with a mindset on total employee participation, putting quality first and continual improvements. We also have a continuous commitment to guaranteeing a secure environment in which customers can realize their ideas to the highest standard, trusting in LFoundry as a valued partner to unleash their full potential.

Resilience through execution

Rooted in LFoundry's history, these factors express the concept of resilience underlining the ability to interpret the context, go across significant change and come out victorious. This value lays a strong foundation for the company to overcome the technological and circumstantial challenges of the future. Through resilience the company can adapt itself at the context, elaborating standardized processes and creating strict disciplines. We will meet our goals through rigorous planning, efficient execution, detailed follow-up, and timely problem resolution, keeping in mind the environmental changes.

Interdependence

Conveys the ideas of interdependence and cooperation, specifically in the foundry-customer interrelationship, in individual work teams and between each member of Foundry's workforce. Company goals will be achieved by cooperation between disciplines, all taking the proper ownership and accountability while understanding each other's role and challenges for success. This value underlines the importance of the single parts of a larger system comprised of the foundry, its customers and its employees, simultaneously evoking their connection to the working process with a view to reaching a common goals.
